Internet2 Content Support and Resources

Dr. Susan Lancaster

May 20, 2009

10 a.m. EDT

(registration at 9:30 a.m.)

How can we support content and curriculum with the use of
interactive video and the advanced network?

This workshop will focus on answering questions, guiding participants
to an understanding related to the use of Internet2 and the advanced
network, and the implementation of interactive videoconferencing.

Participants will discover answers to:

- How do I begin?
- Where do I find appropriate content, contacts and programs?
- What should I know and how should I prepare before the
videoconference occurs?
- Where can I turn for technical help and information?

Participants will gain a better understanding of Internet2 resources
and the potential of Internet2 content, experiences, and activities for
their students.

Please bring your questions and join us.

For registration information, contact your campus Faculty Development
representative or call 502.573.1555, Ext. 259
